Instant Show Presenter

Real-Time Slide Presentation Software

Key Features

Instant Show Wizard

Turn Photos & Videos Into a Show In Seconds!

It's easy to create a slideshow with TMPGEnc Instant Show Presenter, but if you're in a hurry, you can use the Instant Show Wizard to create a slideshow with just a few clicks! Select a theme, add your photos and videos, and the wizard will handle the rest! You can also set your own music, picture and caption settings. Perfect if you need to process lots of photos and videos!

Real-time Control System

The Quick and Easy Way to Show Off Your Photos!

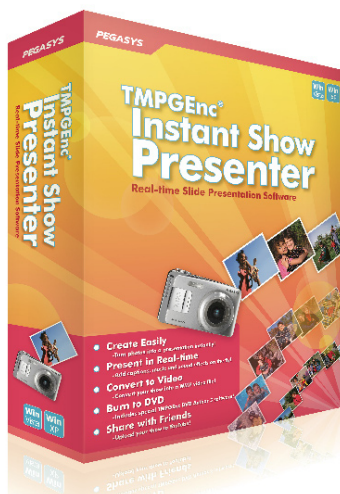

Preview or play your show with the Real-time Control System (RTCS) which gives you full control over your show with playback controls and the ability to add captions, music, and sound effects on the fly. Have a second monitor or a projector? Play your show full screen on your secondary display while you control the show with the on your primary monitor.

Output As Video

Share Your Show With Numerous Output Options!

Output your show to WMV format and you can save your slideshow for mobile devices or even in full HD resolution. Or output as a MPEG-2 video file for authoring to DVD with the included TMPGEnc DVD Author 3 for Instant Show Presenter software. This special version of DVD Author 3 allows you to create a menu for your slidesow with easy-to-use wizards to guide you. Then burn your show to DVD for hassle-free playback on any DVD player. Lastly, you can upload your video to YouTube so you can share it with friends, family or the whole world!

Plus More Great Features!

- Choose from over 160 transition effects!
- Add great zoom-in/out animation!
- Add your own music or sound effects!
- Apply filters for a nostalgic touch!
- Create captions or end credit sequences!
- Capture sequential images from video with the included TileShot CREATOR software!
